

## MINIMIZE COST, MAXIMIZE RESPONSIVENESS

Technology companies have unique needs. Extron's world-class Order Fulfillment solutions allow you to focus on sales and marketing, and not get bogged down in the complex process of managing global orders, inventory, fulfillment, and worldwide shipping. We offer a full slate of Fulfillment Services (below) which expertly prepare your product for delivery.

Extron's Logistics solutions give you superior control and flexibility over the delivery of your products, and Extron passes along heavily discounted worldwide shipping rates usually only enjoyed by large companies. Additionally, we take care of the complexities surrounding denied-party screening, rate management, export controls, serial number tracking, Importer of Record (IOR) matters, import/export requirements, customs, and documentation.

Extron's distribution network is designed to seamlessly dovetail into Extron's Systems Integration, Configuration and Test services.
